

**Larry Simmons**  
*Deputy Project Manager*  
**Waste Treatment Plant Project**  
**Bechtel National. Inc.**

Larry Simmons, Deputy Project Manager for Capital Project Execution of Hanford's Waste Treatment Plant Project, has more than 30 years of experience in Engineering, Construction, Project Controls and Project management, including 18 years in the design and construction of facilities for the nuclear industry.

Larry first joined Bechtel in 1978 and in 1990 was the project controls supervisor at the Savannah River Site for two departments that had a combined annual budget of \$70 million. Since that time, he has undertaken a series of increasingly important assignments. As President of Bechtel Savannah River, Inc. and Director of Westinghouse Savannah River Company's Projects, Design and Construction Services Unit, Larry was responsible for all capital project management, design and construction activities.

He holds a Master of Science degree in Electrical Engineering from Northeastern University in Boston, MA.
